2020

Vistalagic, Inc, Remote *Jun 2015 – Jun 2020*

## Senior User Interface Designer

- Lead UI/UX designer and front-end developer for Clara, an innovative technology platform that facilitates an integrated network of community partners working together to assist those in need.
- Translated and organized complex institutional and program requirements into clean, discoverable, responsive, and engaging user interfaces for healthcare and social service organizations such as Healthy Families Oregon and the Oregon Health Authority.
- Built a complete design system and set of reusable and nest-able design patterns and components using HTML, CSS, SASS, and JavaScript and integrated with an existing ASP.net technology platform.

2013

Test/Plot Studio, Brightwaters, NY *Jun 2013 – Present*

## Principle & Founder

- Freelance design practice focused on developing interfaces between the virtual and physical worlds to empower individuals and communities to imagine and create sustaining and sustainable living environments.
- Designed and developed **Possible City**, an open data social mapping platform with a mission to connect and incubate citizen-driven reclamation of vacant properties for innovative community uses. Possible City was a finalist in the 2013 Knight News Challenge on Open Government.
- Other clients include Future Green Studio, City Parks Association of Philadelphia, The Center for Emerging Visual Artists, AWARE Institute, Curant, and Projexity.

2012

James Corner Field Operations, New York, NY *Mar 2012 – Jun 2015*

## Project Designer

- Project designer and project manager for range of landscape and urban design projects of various scales including Columbia University Manhattanville Campus and Waterfront Seattle.

2011

Future Green Studio, Brooklyn, NY *Mar 2011 – Mar 2012*

## Associate

- Lead designer and project manager on the Pool Farm project: a rooftop pool retrofitted as the new site of farm-to-table dining experience embedded in an edible landscape.

2008

Wallace Roberts & Todd, Philadelphia, PA *Aug 2008 – Mar 2011*

## Urban Landscape Designer

- Project designer and project manager for range of landscape and urban design projects of various scales including and ASLA Award winning conceptual design master plan and design manual for Red Mountain Park, a new 1,200 acre public park on a former iron ore mining mountain in Birmingham, Alabama.

2004

UNIVERSITY OF PENNSYLVANIA GRADUATE SCHOOL OF DESIGN

2000

Site59.com / Travelocity.com, New York, NY *Mar 2000 – Jun 2004*

## Director of Interface Design, Senior Web Designer

- Managed a team of 5 designers and front-end engineers tasked with design, development, and maintenance of Site59.com and 20 white-label partners
- After Site59 was acquired by Travelocity, I worked with a team on a full redesign of Travelocity.com and led an initiative to implement Web Standards across the site.
